

School Show Be the Circus

45 - 60 minutes, K-12 School Gym, Theatre
study guide available

Flyin' Bob's school show has mesmerized K - 12 school audiences across the country. When was the last time a show in your school made a kindergarten kid and a too cool senior laugh at the same time? Never patronizing, Flyin' Bob fully connects with his audience.

(Probably since he has never really grown up himself)

The show explores the possibilities inherent in juggling, acrobatics, wire walking, comedy, and character. It stresses the importance of physical activity, concentration, and the value of failure as well as success. Selected students perform in the show and learn the consequences and rewards of decision making, risk taking, focus, peer support, community, and the importance of play.

"...awes students with his ability to discipline his mind and body to do amazing feats. We continually encourage students to develop self discipline and perseverance to accomplish their dreams and goals. Bob's entire show is an example of that type of determination and dedication."

Theatre Show Articulate Nonsense

60, 75, 90 minutes 60 minutes no intermission
Family, Adult Theatre, Auditorium

An exploration of the three ring circus in Flyin' Bob's mind, and all the silliness that entails. From the simple balance of a peacock feather, through Flying Boom Boxes, Vertical Bowling and Celery, to a dramatic and nearly disastrous high wire **Articulate Nonsense** is a celebration of risk taking, audience participation, success, failure, useless skills, play, and never giving up.
